ANNEXURE A

FORM – 2A

[See Regulation 3A.]

ENGINEER'S CERTIFICATE FOR QUALITY ASSURANCE

(Site Supervisor's Certificate)

(To be submitted at end of the Financial Year)

Date: 31/03/2025

To,

DHARMANITI CONSTRUCTION PVT. LTD.

1, ANAND NAGAR, DEOPUR, DHULE.

QUALITY ASSURANCE CERTIFICATE

(Certificate No .1 for the year ending 2024-25)

Subject: Certificate for quality material used and quality of construction and workmanship for the work of NAKSHATRA AVENUE having MahaRERA Registration Number P49800048215 being developed by DHARMANITI CONSTRUCTION PVT. LTD.

Sir,

I/We **BHAVSAR & ASSOCIATES** have undertaken the assignment of supervision of this real estate project.

**Our Responsibility.**

To carry out the work in accordance with the development permission and as per the approved plan, to submit certificate of supervision of work, to carry out material testing in-situ or in an authorized laboratory as per prevailing and applicable standards, to ensure quality of work and workmanship as per prescribed specifications, and as per NBC and/or other relevant code of practice.

The details of the quality are as follows:

### 1. Structural Design, Stability and Testing

| Sr No. | Parameters                                                                                                                                                              | Yes | No | Remarks        |
|--------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|----|----------------|
| 1.     | Whether soil investigations of the site have been conducted before the structural design and soil parameters have been accounted for in the structural design/drawings? | YES |    | OK             |
| 2.     | Whether Structural Engineer has been appointed for the project?                                                                                                         | YES |    | OK             |
| 3.     | Whether the inspection registers, site order book and quality control test registers are maintained at the site properly and endorsed by the Engineer-in-Charge?        | YES |    | OK             |
| 4.     | Whether testing facilities to check quality of material is available at site?                                                                                           | YES |    | OK             |
| 5.     | Whether the statutory provision for disaster resistance/earthquake resistant design have been incorporated, specially in case of multistoried construction?             | YES |    | OK             |
| 6.     | Has suitable cognizance been taken on demarcated flood lines and appropriate precautions taken for protecting the site from flooding considering local flooding issues? |     |    | NOT APPLICABLE |

## 2. Input Materials

| Sr No. | Parameters                                                                                                                              | Yes | No | Remarks |
|--------|-----------------------------------------------------------------------------------------------------------------------------------------|-----|----|---------|
| 1.     | Whether the following building materials confirm to relevant IS/BS/NBC Code, or per Industry Standards?<br>If yes, provide details:     |     |    |         |
|        | A. Cement, Concrete and Coarse Aggregate                                                                                                | YES |    | OK      |
|        | B. Steel and its alloy                                                                                                                  | YES |    | OK      |
|        | C. Electrical wire, fittings and accessories                                                                                            | YES |    | OK      |
|        | D. Plumbing and sanitary fittings                                                                                                       | YES |    | OK      |
| 2.     | Whether regular tests of materials and construction products are being done from accredited labs also? If yes, details of such labs     |     | NO |         |
| 3.     | Whether manufacturer test certificate for cement, steel, pipes etc. have been obtained and whether supply records are being maintained? |     | NO |         |
| 4.     | Whether suitable water is being used for construction?                                                                                  | YES |    | OK      |
|        | A. What is the source of water?                                                                                                         |     |    | BORING  |
|        | B. Has water been tested and approved by Engineer-in-Charge before construction?                                                        |     | NO |         |
|        | C. Has water been tested subsequently as per requirement?                                                                               |     | NO |         |
