Place: Nasik

- **Notes to Audit Report:**

I. Estimated cost for the calculation of percentage of completion is given by the management of the Promoter.

II. Percentage of completion of project is calculated as per actual cost incurred as per books of accounts divided by the total estimated cost of project to complete the project. In calculating the estimated cost of the project the indexed cost of land was considered as per the prevailing RERA law in force. Later the RERA law was amended and as per the amended law ASR values were to be considered for calculating estimated cost of the project. The management has calculated the percentage completion of the project considering the indexed cost of the project to maintain the consistency. Even though the ASR values are considered for the purpose of percentage completion calculation there would be marginal impact on the withdrawable limit, but still the actual amount withdrawn is much lower than withdrawable limit

III. As per the reporting requirements of Form 5, in point 3(ii), the auditor is required to state "Amount collected in specified designated account" during the Audit period April 2020 to March 2021 for the project. The definition of the term "Collect" has not been defined in the MAHA RERA Act and the regulations made thereunder. Moreover, the said term is not defined in the General Clauses Act, 2017. Thus, when a particular term is not defined in the governing statute and in the General Clauses Act, 1977 one has to consider its definition as per the common parlance and as per various recognised dictionaries. As per the common parlance of the term and as per Black Law's dictionary the meaning of term "Collect" means to gather together; to bring scattered things (assets, accounts, articles of property) into one mass or fund. Thus, it can be inferred that the amount received from customers will

be considered as the amount collected as a fund and will form part of amount "Collected" for Form 5 reporting purposes. Whereas, the amount introduced by the partners in the business is termed as Capital as per the generally accepted principles of accounting. It does not form part of the term Collected. Thus, while reporting for the sum of Amount Collected in the aforesaid point we have not considered the amount of money introduced in the business by the partners. Similar practice was followed during the previous financial year i.e. F.Y. 2019-20.

IV. Moreover, it is required to be reported the amount withdrawn during April 2020 to March 2021 in point 3(iii) of Form 5. We have considered the entire amount withdrawn from the designated bank account and thus includes the partners' own funds as well. Detailed working in this regard is explained vide table below. Similar practice was followed during the previous financial year i.e. F.Y. 2019-20.

Calculation of withdrawal if owners fund infused specifically into designated account and used for project are not considered as withdrawal

FY	A/c No.-12	A/c No-14	Total
2019-20	14,52,419	36,30,752	50,83,171
Capital introduced and withdrawn	-1,84,000	- 10,00,000	-11,84,000
Net withdrawal of customers money	**12,68,419**	**26,30,752**	**38,99,171**
2020-21	17,88,200	48,73,456	66,61,656
Total			**105,60,827**
