Annexure I

Notes forming an integral part of the Certificate dated 27th June 2017 on total cost incurred for Project 'Mahindra Bloomdale' as on 30th April 2017

1. Details of estimated costs and actual cost, sales consideration & amount realised as given in Form No. 3 pertain to real estate project 'Mahindra Bloomdale' consisting of 4 buildings, 6 row houses and 6 Duplex houses together with amenities being offered to the customers.

2. The Company has implemented Enterprise Resource Package 'SAP' wherein project budgeting, monitoring and actual expenditure is captured with reference to a project under 'profit centre' with work break down structure (WBS) elements for different nature of expenditure.

   We have relied upon the correctness and completeness of the working of this system in capturing the aforesaid data.

3. The Company has awarded construction contract for entire project (excluding certain amenities) to joint venture partner M/s B E Billiomoria & Co Ltd. at rate of Rs.1560/- per square feet plus applicable taxes and escalation. It is informed that the revision in rate is under negotiation. Pending finalisation of the rate, the Company has made a provision for construction cost @Rs.1,700/- per square feet for the construction work which was done since April 2015. Actual cost per building / row house / duplex is worked out on the basis of work certified by the project manager or authorised personnel of the Company.

4. It is informed that the project 'Mahindra Bloomdale' is being developed on 25 acres of land parcel owned by the Company. Phase I of the project is already completed. Currently development work is going in phases and further development is proposed on balance land. Therefore, following costs (estimated and actual) are allocated on the basis of saleable area amongst buildings/ row house / duplex, wherever applicable
   - Cost of land, premium for development rights, stamp duty and registration charges
   - Common infrastructure and amenities costs
   - On-site expenditure
   - Project Architect, liasoning and consultants' fees
   - Interest Cost
   - Manpower Cost

5. On-site expenditure includes site establishment costs, architect's fees, liasoning cost, project manpower cost, and eligible CENVAT credit on construction cost and the aforesaid costs.

6. Since the Company is currently developing the aforesaid project only, entire manpower cost is incurred for the project and further allocated between buildings / row houses / duplex on salable area basis.

7. Estimates of on-site expenditure, payment of taxes, cess, fees etc. payable to statutory authority, eligible CENVAT credit on construction & development cost and interest payable on borrowings for construction & land acquisition as certified by the Management are relied upon.

8. We have relied upon carpet area, built up area and saleable area certified by the Management.

9. Unit consideration in respect of unsold inventory is taken as per ready reckoner rate published by Government of Maharashtra. The rate given for built up area is converted into carpet area using proportion of carpet area to built up area as certified by the Management.

10. Further the above relevant information has been generally test checked and reconciled with the books of account.

11. Percentage completion of construction work disclosed in clause 4 of the Form is percentage of actual cost of construction as per books of account to estimated cost of construction certified by the Engineer.
