To,
The RERA Legal Department,

Dear Sir,
We entered into a consortium agreement and power of attorney with the landowner as per the prescribed format provided by MHADA.The project was granted approval on the same documents. We got all approvals from MHADA, MahaRERA, and moved for environment clearance as well.

But the Consortium Agreement and Power of Attorney are not legally enforceable, so we could not get possession of the land because of weak documents. The Landowner refused to give possession and discontinued the agreement.
We have done **ZERO Construction** and we have **ZERO allottees** on this project.

Hence, we want to Deregister the project from MahaRERA.
