Maharera,

Subject: **Typographical Error in the total plot area of the project**

Sir,

Due to a typographical error, the total plottable area of the project has been entered wrong. The actual Net plottable area of the project land is 1948.39 Square Meters, whereas it has been wrongly entered as 1956.12 Square Meters.

To correct this typo we need to change the area mentioned in the project details. But the edit option for the same is not present.

Thus, we ask RERA authority for their input on the situation and how to tackle the problem.

Regards,
